DAMSARINI NAWELA

Full Stack Web Development Intern
Horana, Sri Lanka | +94 77 509 6262 | damsaraninawela2002@gmail.com
GitHub: https://github.com/damsaraninawela2002-ux | Portfolio: https://frontend-1-henna.vercel.app/
LinkedIn: https://www.linkedin.com/in/damsarini-nawela-0816243ba

OBJECTIVE

HNDIT student with hands-on experience building 6 projects, including 5 full-stack web applications and 1 Android app, using HTML5, CSS3, Tailwind CSS, JavaScript, React.js, Node.js, Express.js, PHP, FastAPI, ASP.NET Core, MySQL and MongoDB. Skilled in RESTful API development, JWT authentication, CRUD operations, Git version control and deployment on Vercel and Render, with experience integrating AI models into web applications. Seeking a Full Stack Web Development Intern role to build real-world solutions and grow within a collaborative team.

EDUCATION

Higher National Diploma in Information Technology (HNDIT) | 2024 – Present
Advanced Technological Institute – Rathnapura

- 8 Key Modules: Programming, Web Development, Database Systems, Object-Oriented Programming, Software Engineering, Mobile Application Development, Software Quality Assurance, Machine Learning

G.C.E. Advanced Level (A/L) – Bio Technology Stream | 2022
Taxila Central College, Horana

Diploma in English | 2023
Horana Sripalee Campus

Diploma in Human Resource Management and Services | 2023
LPEC Campus

SKILLS

Programming Languages: Java, C#, Kotlin, PHP, Python, JavaScript

Frontend: HTML5, CSS, React.js, Vite, Tailwind CSS, Framer Motion, Recharts

Backend: Node.js, Express.js, FastAPI, ASP.NET Core, RESTful APIs, JWT Authentication, API Integration, CRUD Operations

Machine Learning: TensorFlow, Keras, MobileNetV2 (Transfer Learning), scikit-learn, XGBoost, SHAP and Grad-CAM (Explainable AI), Gemini API, Model Evaluation (PR-AUC, Precision, Recall)

Database Management: MySQL, MongoDB, MongoDB Atlas

Tools & Technologies: Git, GitHub, Visual Studio Code (VS Code), Postman, Pytest, Android Studio, XAMPP, Vercel, Render

Methodologies: Agile, Software Development Life Cycle (SDLC)

Soft Skills: Teamwork, Communication, Problem Solving, Adaptability, Time Management, Attention to Detail

CERTIFICATIONS

- Certificate in Python for Beginners – University of Moratuwa
- Certificate in Frontend Web Development – University of Moratuwa
- Certificate in Web Design – University of Moratuwa

LANGUAGES

- English – Intermediate
- Sinhala – Fluent

PROJECTS

AgroLens AI – Crop Disease Detection & Farmer Advisory Platform | Oct 2026

- **Technologies:** React.js, Vite, Tailwind CSS, Python, FastAPI, TensorFlow, MobileNetV2, Gemini API, MongoDB Atlas
- Developed a bilingual (Sinhala/English) AI-powered platform that enables farmers to detect crop diseases by uploading leaf images and receive diagnosis results, confidence scores, top 3 predictions, treatment recommendations, and farming guidance through a Gemini-powered AI chatbot.
- Implemented a MobileNetV2 transfer-learning model trained on the PlantVillage dataset to classify 15 disease classes across Tomato, Potato, and Bell Pepper crops, with Grad-CAM heatmaps for model explainability.
- Implemented crop-aware predictions and a 70% confidence threshold, forwarding uncertain results for Agricultural Officer review.
- Developed a FastAPI backend with MongoDB Atlas, JWT access and refresh tokens, bcrypt password hashing, rate limiting, and role-based access control.
- **GitHub:** https://github.com/damsaraninawela2002-ux/AgroLens-AI

FraudGuard AI – Explainable Fraud Detection System | Oct 2026

- **Technologies:** React.js, Vite, Tailwind CSS, FastAPI, Python, XGBoost, scikit-learn, SHAP, MongoDB, JWT
- Built a full-stack fraud detection platform that scores transactions with an XGBoost classifier and explains each prediction using SHAP feature attributions.
- Trained and evaluated the model on the PaySim dataset (stratified 80/20 split), handling class imbalance with scale_pos_weight; achieved PR-AUC 0.82, Precision 0.88 and Recall 0.73 on the test set.
- Developed a FastAPI backend with JWT authentication, MongoDB storage, paginated transaction history, statistics and CSV export endpoints; wrote pytest API tests.
- Built a responsive React.js dashboard with Recharts: risk gauge, SHAP contribution chart, fraud trend charts and a What-If Sandbox for live scenario testing.
- **GitHub:** https://github.com/damsaraninawela2002-ux/FraudGuard-AI

Inventory Management System | Sep 2026

- **Technologies:** React.js, Vite, Tailwind CSS, HTML5, CSS3, JavaScript, C#, ASP.NET Core, MongoDB Atlas
- Built a full-stack inventory management application for administrators to manage products, stock quantities and categories, with secure user login.
- Developed REST APIs using C# and ASP.NET Core with MongoDB Atlas for full CRUD product operations (add, edit, delete, search, stock update); tested endpoints with Postman.
- **GitHub:** https://github.com/damsaraninawela2002-ux/Inventory-Management-System

Galaxy Cinemas Management System | Aug 2026

- **Technologies:** React.js, Node.js, Express.js, PHP, MySQL, HTML, CSS, JavaScript
- Built a full-stack cinema management platform where users browse movies and view show times.
- Implemented 2 booking features (seat selection and online movie ticket booking) with CRUD operations.
- Integrated a React.js frontend with Node.js and Express.js REST APIs backed by a MySQL database.
- **GitHub:** https://github.com/damsaraninawela2002-ux/galaxy-cinemas-system

Dreamy Delight – Cosmetics Shop Management System | Dec 2025 – Feb 2026

- **Technologies:** React.js, Node.js, Express.js, MySQL, HTML, CSS, JavaScript
- Built a full-stack e-commerce cosmetics management system with product browsing, shopping cart, wishlist and order placement.
- Designed a MySQL database and integrated it with Node.js and Express.js REST API endpoints using CRUD operations.
- **GitHub:** https://github.com/damsaraninawela2002-ux/Cosmetic-Shop-System

Easy Calculator App | Jul 2026

- **Technologies:** Java, Android Studio, XML
- Built an Android calculator application performing basic arithmetic operations.
- Designed a clean, user-friendly interface using XML layouts.
- **GitHub:** https://github.com/damsaraninawela2002-ux/EasyCalculator
