DAMSARINI NAWELA

Full-Stack Developer Intern

Horana, Sri Lanka | 077 509 6262 | damsaraninawela2002@gmail.com
GitHub: https://github.com/damsaraninawela2002-ux | Portfolio: https://frontend-1-henna.vercel.app/
LinkedIn: https://www.linkedin.com/in/damsarini-nawela-0816243ba

OBJECTIVE

Motivated HNDIT student who has built 6 projects (5 full-stack web applications and 1 Android app) using React.js, Node.js, FastAPI, ASP.NET Core, MySQL and MongoDB. Skilled in developing RESTful APIs, JWT authentication, CRUD operations, API integration, machine learning model integration and responsive user interfaces through academic and personal projects. Seeking a Full-Stack Developer internship to apply my technical skills in a real-world environment, contribute to team projects and grow as a developer.

EDUCATION

Higher National Diploma in Information Technology (HNDIT) | 2024 – Present
Advanced Technological Institute – Rathnapura

- 8 Key Modules: Programming, Web Development, Database Systems, Object-Oriented Programming, Software Engineering, Mobile Application Development, Software Quality Assurance, Machine Learning

G.C.E. Advanced Level (A/L) – Bio Technology Stream | 2022
Taxila Central College, Horana

Diploma in English | 2023
Horana Sripalee Campus

Diploma in Human Resource Management and Services | 2023
LPEC Campus

SKILLS

Programming Languages: Java, C#, Kotlin, PHP, Python, JavaScript

Web Development: HTML5, CSS, React.js, Vite, Tailwind CSS, Framer Motion, Recharts, Node.js, Express.js, FastAPI, ASP.NET Core, RESTful APIs, API Integration, JWT Authentication, CRUD Operations

Machine Learning: XGBoost, scikit-learn, SHAP (Explainable AI), Model Evaluation (PR-AUC, Precision, Recall)

Database Management: MySQL, MongoDB

Tools & Technologies: Git, GitHub, Visual Studio Code (VS Code), Postman, Pytest, Android Studio, XAMPP, Vercel, Render

Methodologies: Agile, Git Version Control, Postman API Testing

Soft Skills: Teamwork, Communication, Problem Solving, Adaptability, Time Management, Attention to Detail

CERTIFICATIONS

- Certificate in Python for Beginners – University of Moratuwa
- Certificate in Frontend Web Development – University of Moratuwa
- Certificate in Web Design – University of Moratuwa

LANGUAGES

- English – Basic
- Sinhala – Fluent

PROJECTS

FraudGuard AI – Explainable Fraud Detection System | Oct 2026

- **Technologies:** React, Vite, Tailwind CSS, FastAPI, Python, XGBoost, scikit-learn, SHAP, MongoDB, JWT
- Built a full-stack fraud detection platform that scores transactions with an XGBoost classifier and explains each prediction using SHAP feature attributions.
- Trained and evaluated the model on the PaySim dataset (stratified 80/20 split), handling class imbalance with scale_pos_weight; achieved PR-AUC 0.82, Precision 0.88 and Recall 0.73 on the test set.
- Developed a FastAPI backend with JWT authentication, MongoDB storage, paginated transaction history, statistics and CSV export endpoints; wrote pytest API tests.
- Built a responsive React dashboard with Recharts: risk gauge, SHAP contribution chart, fraud trend charts and a What-If Sandbox for live scenario testing.
- **GitHub:** https://github.com/damsaraninawela2002-ux/FraudGuard-AI

Inventory Management System | 2026

- **Technologies:** React.js, Vite, Tailwind CSS, HTML5, CSS3, JavaScript, C#, ASP.NET Core, MongoDB
- Built a full-stack inventory management application for administrators to manage products, stock quantities and categories.
- Implemented secure user login and 5 product operations (add, edit, delete, search, stock update) with full CRUD.
- Developed REST APIs using C# and ASP.NET Core with MongoDB; tested endpoints with Postman and managed code with Git version control on GitHub.
- **GitHub:** https://github.com/damsaraninawela2002-ux/Inventory-Management-System

Galaxy Cinemas Management System | 2026

- **Technologies:** React, Node.js, Express.js, MySQL, HTML, CSS, JavaScript
- Built a full-stack cinema management platform where users browse movies and view show times.
- Implemented 2 booking features (seat selection and online movie ticket booking) with CRUD operations.
- Integrated a React frontend with Node.js and Express.js REST APIs backed by a MySQL database.
- **GitHub:** https://github.com/damsaraninawela2002-ux/galaxy-cinemas-system

Dreamy Delight – Cosmetics Shop Management System | 2025 – 2026

- **Technologies:** React, Node.js, Express.js, MySQL, HTML, CSS, JavaScript
- Built a full-stack e-commerce cosmetics management system where customers browse products and view product details.
- Implemented 3 core features (shopping cart, wishlist and order placement) with CRUD operations.
- Designed a MySQL database and integrated it with Node.js and Express.js REST API endpoints.
- **GitHub:** https://github.com/damsaraninawela2002-ux/Cosmetic-Shop-System

BlueWave Water Park Management System | 2026

- **Technologies:** React.js, Vite, FastAPI, Python, MongoDB, JWT, HTML5, CSS3, JavaScript
- Built a full-stack water park management platform where users browse attractions and view available activities.
- Implemented 3 core features (JWT authentication, online ticket selection and booking, and admin CRUD operations) through a responsive interface.
- Integrated a React.js (Vite) frontend with FastAPI REST APIs and a MongoDB database; tested API endpoints with Postman.
- **GitHub:** https://github.com/damsaraninawela2002-ux/bluewave-water-park

Easy Calculator App | 2026

- **Technologies:** Java, Android Studio, XML
- Built an Android calculator application performing basic arithmetic operations.
- Designed a clean, user-friendly interface using XML layouts.
- **GitHub:** https://github.com/damsaraninawela2002-ux/EasyCalculator
